

REMARKS

Applicants have received and carefully reviewed the Office Action of the Examiner mailed July 16, 2008. Currently, claims 1-81 remain pending of which claims 9-11, 20, 25-40, and 50-52 were previously withdrawn from consideration. Favorable consideration of the following remarks is respectfully requested.

In the Examiner's Response to Amendment, the Examiner asserted that there was no reference to the specification to support the previously made amendment and requested clarification indicating the location in the specification where support can be found for the newly added claim language.

Accordingly, the Applicants direct the Examiner's attention to the portion of the specification starting on page 12, line 6 and continuing to page 14, line 21 for discussion regarding the positioning and deployment of the claimed apparatus (for example, balloon assemblies 14 and 15) and the introduction and movement of treatment material (42) to affect the treatment site.

In view of the foregoing, all pending claims are believed to be in a condition for allowance. Reexamination and reconsideration are respectfully requested. Issuance of a Notice of Allowance in due course is anticipated. If a telephone conference might be of assistance, please contact the undersigned attorney at (612) 677-9050.

Respectfully submitted,

HAROLD CARRISON et al.

By their Attorney,
